## Professional Summary

A dedicated Quality Assurance Engineer and Frontend Developer with a strong passion for creating seamless, user-friendly web applications and ensuring software excellence through rigorous testing and automation. Proficient in HTML, CSS, JavaScript, Git, and frameworks, with experience in testing tools like Cypress and Appium. Skilled in translating UI/UX designs into responsive web interfaces while implementing effective testing strategies to guarantee optimal functionality and performance. Excels in collaboration, problem-solving, and delivering innovative solutions that drive digital transformation. Committed to continuous learning and making a lasting impact in the tech industry.

## TECHNICAL SKILLS

- Frontend Development: HTML, CSS, JavaScript, Bootstrap, UI/UX Implementation
- Testing Tools: Cypress, Appium, Cucumber, Test Automation
- Version Control: Git, GitHub
- Frameworks/Libraries: React (Currently Learning), Tailwind CSS (Currently Learning)

## SOFT SKILLS

- Agile Team Collaboration | Problem-Solving & Critical Thinking | Leadership & Mentorship
- Time Management | Cross-Functional Communication | Adaptability in Fast-Paced Environments

## WORK EXPERIENCE

**Front-End Developer | Ions Tech Limited** (Oct 2024 – Jan 2025)

- Developed responsive, mobile-first web interfaces using **HTML, CSS, and JavaScript**, improving user engagement by **30%**.

- Collaborated with UI/UX designers to translate mockups into interactive web pages, ensuring 100% design fidelity.
- Optimized code performance, reducing page load time by **25%**.

#### **Campus Ambassador | Cowrywise (Oct 2024 – Present)**

- Promoted financial literacy tools to 500+ students, driving a **20% increase** in app registrations.
- **Acted as a liaison between Cowrywise and the student community, gathering valuable feedback for product improvement.**

#### **Instructor | GDG Caleb (Sep 2024 – Present)**

- Mentored 50+ students in web development fundamentals, including portfolio building and responsive design.
- Delivered sessions at the bootcamp, teaching web basics and portfolio creation to students in tech or those transitioning into tech.
- Provided hands-on instruction and mentorship, fostering learning through interactive activities and real-world examples.
- Contributed to the growth of the tech community by empowering students with practical skills for their career advancement

## **EDUCATION**

### **B.Sc. Computer Science | Caleb University (2022 – 2026)**

- **Relevant Coursework: Frontend Development, Software Testing & QA**
- **Leadership: Instructor at GDG Caleb | Speaker at tech bootcamps on portfolio development.**
- **Clubs: Lagos State Career Expo (LSCE), National Association of Computer Science Students (NACOS).**

## **PROJECTS**

### **1. Portfolio Website (Solo Project)**

- Built a responsive portfolio using HTML, CSS, JavaScript, featuring animations and interactive elements.
- Achieved a 90+ Lighthouse performance score through optimization.

## **2. EPC Services Company Website (Team of 3)**

- Developed a corporate site for an engineering firm, improving client engagement by 40%.
- Reduced page load time by 35% via image compression and code minification.

## **Hobbies**

- Gaming: Enhances strategic thinking through puzzle-solving games.
- Tech Community: Active participant in forums and hackathons.
- Basketball: Fosters teamwork and leadership on the court.
